

Application Example

TS91003-2

TS91003-2 Function as a PCB Rotate Unit. It will lift the PCB panel and rotate it by 90 degrees and the roller conveyor will transport the PCB panel out.

Machine Specifications

Model	TS91003-2
Panel Size	18" x 24"(min) to 21" x 24"(max)
Panel Thickness	0.05mm-3.0mm
Cycle Time	6 sec/panel
Conveyor Pass Line	950 ± 30mm
Interleave	NO
Electrical Connection	AC220V+N+PE, 1 phase, 50Hz, 1.5KW
Air Supply	5 Bar, 150l/min
Machine Weight	100 Kg per unit
Machine Size	1620mm(L)x1105mm(W)x1110mm(H)

Options

- Safety Feature: Swing door with safety sensor ; Curtain sensor
- Rotate: 90 degree; 180 degree; 270 degree
